PROFILE

Principal Lead Software Developer combining technical leadership with hands-on full-stack delivery. Building software since 2015 across web, desktop and mobile platforms for international clients. Currently with Plainstep, using AI-assisted development as a core part of the engineering workflow, with a 4+ year client engagement for Mars Group focused on the Pet Segment Formulation Team.

CORE SKILLS

Backend: C#, ASP.NET Core, Entity Framework Core, Node.js, TypeScript, GraphQL

Frontend: Vue.js, Nuxt.js, Angular, AngularJS, Electron

Data: SQL Server, PostgreSQL, MongoDB, Redis

Platforms: Google Cloud, AWS, Azure, Firebase, Azure DevOps, CircleCI

Delivery: Technical leadership, AI-assisted development, client collaboration, technical interviews

PROFESSIONAL EXPERIENCE

Principal Lead Software Developer | Plainstep

Company tenure: May 2020 - Present

Formerly GistLens Pty. Ltd.; continued with the business through its transition to the Isle of Man.

- Lead technical delivery across internal and client applications, combining development responsibilities with a focus on software quality and timely delivery.
- Use AI-assisted development as a central part of the team's software development workflow.
- Deliver projects for clients across Australia, the United Kingdom, the Netherlands and the United States.

MARS GROUP | CLIENT ENGAGEMENT

Technical Lead - Pet Segment, Formulation Team

4+ years as a contractor through GistLens / Plainstep

- Provide technical leadership for applications supporting the Pet Segment Formulation Team.
- Maintain and extend manufacturing applications, building on earlier sole full-stack development responsibilities.

Project technologies: C#, ASP.NET Core, Entity Framework Core, Vue.js, Nuxt.js, SQL Server and Windows Server.

SELECTED PROJECTS AT GISTLENS / PLAINSTEP

- Greenbench: Led development of a touchscreen web application for navigating construction drawings and 3D models, using Vue.js, Nuxt.js, .NET, GraphQL and PostgreSQL.
- FleetSafe: Led development of a vehicle safety application for daily checks and issue reporting, using Vue.js, Nuxt.js, TypeScript, Node.js, GraphQL and MongoDB.
- Orbx: Developed an Electron/web storefront for flight simulator products with product administration across organizations, using Angular, .NET and PostgreSQL.

PROFESSIONAL EXPERIENCE - CONTINUED

Interview Engineer (Part-time) | Outliant

June 2022 - September 2023

- Assessed software development candidates through applicant reviews and technical interviews, and contributed to improvements in the interview process.

Full-Stack Developer | ProSMART Pty. Ltd.

April 2019 - February 2020

- Developed frontend and backend functionality for ProSMART Tools, a knowledge retention platform supporting organizational knowledge capture.

Stack: AngularJS, C#, ASP.NET Framework, Entity Framework, SQL Server, AWS and Kendo UI.

Android Developer | The Verticals Consultancy Group PTE LTD

December 2018 - April 2019

- Developed an Android learning platform connecting tutors and learners through categorized listings and learner registration.

Stack: Java, Android Annotations, Realm and EventBus.

Associate Technical Specialist II | Alliance Software Inc.

June 2015 - November 2018

- Served as technical lead for web and mobile projects, with full-stack development across JavaScript, ASP.NET, Android and cross-platform applications.
- Led development of APCargo web/mobile applications supporting cargo pickup and delivery requests, rate calculations, branch location and shipment tracking.
- Led the consolidation of internal applications into Alliance Integrated Systems, covering timekeeping, leave and overtime approvals, employee and project records, KPIs and employee ratings.

Stack: C#, ASP.NET Framework, Entity Framework, AngularJS, Xamarin.Forms and SQL Server.

EDUCATION

Bachelor of Science in Computer Engineering

University of Saint La Salle - Bacolod | 2010 - 2015

CERTIFICATION

Microsoft Specialist: Programming in HTML5 with JavaScript and CSS3 | December 2016
